## **Exceptions and Other Limitations**

The policy provides benefits only for Heart Attack, Heart Disease or Stroke. The policy does not cover any other disease or sickness or incapacity other than Heart Attack, Heart Disease or Stroke even though such disease, sickness or incapacity may be caused, complicated or otherwise affected by Heart Attack, Heart Disease or Stroke. If a covered confinement is due to more than one covered condition, benefits will be payable as though the confinement was due to one condition. If a confinement due to a covered disease is also due to a condition that is not covered, benefits will be payable only for the part of the confinement attributable to the covered condition.

If the policy replaces a prior Heart Attack, Heart Disease or Stroke policy or is in addition to another Heart Attack, Heart Disease or Stroke policy already in force, months or days used towards satisfaction of the other policy's waiting period, elimination period, or probationary period will count as time used toward satisfaction of the policy's waiting period, elimination period or probationary period limitation.

**Effect of Simultaneous Surgical or Invasive Procedures:**

Two or more surgical or invasive procedures done at the same time and through a common incision or entry point are considered one operation. If benefits would otherwise be payable for two or more surgical or invasive procedures which are considered one operation, benefits for that operation are only payable for the one surgical or invasive procedure with the largest total benefits.

## **Pre-Existing Condition Limitation**

**Pre-Existing Condition** means any injury or sickness, diagnosed or undiagnosed, for which medical care is received by a Covered Person within the 12 month period prior to the Covered Person's effective date of insurance; or with respect to the limitation for increase in coverage, within the 12 month period prior to the effective date of the Covered Person's increase in coverage.

We will consider medical care received when a Physician is consulted or medical advice is given; or treatment is recommended or prescribed by, or received from a Physician. We will consider treatment to include, but not be limited to, any:

- (a) medical examination, test, treatment, or observation;
- (b) medical services, supplies, or equipment, including their prescription or use; or
- (c) prescribed drugs or medicines, including their prescription or use.

All manifestations, symptoms, or findings which result from the same or related accident or sickness, or from any aggravations of accident or sickness, are considered to be the same accident or sickness for the purpose of determining a Pre-Existing Condition.

During the first 12 months of a Covered Person's insurance, losses incurred for Pre-Existing Conditions are not covered. During the first 12 months following the date a Covered Person makes a change in coverage that increases his or her benefits, the increase will not be paid for Pre-Existing Conditions.
